Senior Data Analyst

The Senior Data Analyst is responsible for managing the health center's internal data analytics team to conceive, manage, and execute data initiatives and communicate effectively with stakeholders to implement advanced data visualization (dashboard) projects. Key duties include building reports and data visualizations as required, and providing advanced training and technical assistance to subordinates (e.g., Data Analyst II). This work requires a detailed understanding of clinical business processes, the ability to extract, clean, and analyze electronic health record data, and write structured query language (SQL) code. Maintains knowledge and skills to perform required grant data reporting tasks, including Bureau of Primary Care Uniform Data Set (UDS) and HIV/AIDS Bureau's Ryan White HIV/AIDS Program Services Report (RSR) and CDR requirements for health centers. The Senior Data Analyst reports to the Quality and Data Lead.

Position Requirements

- 3+ years of experience extracting clinical, operational, and financial data from electronic health record systems
- 1+ years of experience writing complex structured query language (SQL) queries with concepts like subqueries, temp tables, and window functions. Experience with PostgreSQL preferred
- Knowledge and interest in healthcare quality improvement and population health management
- Thorough knowledge of a BI platform such as Tableau, Qlik, Cognos, or Crystal
- Some experience with scripting languages such as Python or Ruby, or a desire and aptitude to learn
- Ability to effectively prioritize multiple projects and meet deadlines
- Proficiency with Microsoft Excel, including Pivot Tables
- Knowledge and understanding of Qualitative and Quantitative analysis methods
- Knowledge of relational database structure
- Excellent verbal and written communication skills
- Demonstrated ability to complete complex projects
- Federal criminal background check
- 40 hours of work per week

Education Requirements

- Bachelor's degree or higher in quantitative or engineering fields (Statistics, Economics, Mathematics, Health/Medical Informatics, Computer Science, or similar)
- If hired, documented proof of highest level of education completed must be delivered on first day of employment

Preferred Qualifications

- Fluent in written and spoken Spanish
- Federally Qualified Health Center (FQHC) experience
- HIV/AIDS Knowledge and Patient Experience
- Experience working with the LGBTQ community
