

Board Governance Training

November 12, 2021 | Post Conference Session

Training Description

LPCA recognizes the important role that board members play in their health center and community at large. For this reason, we work to ensure that the Board of Directors of each existing or new FQHC in Louisiana has a firm understanding of the board's roles and responsibilities.

This year, LPCA's intensive one day Board Governance Training focuses on the core responsibilities of health center board members.

Friday | November 12, 2021
