Many of our services are focused on, but are not limited to, the following: Gender Affirming Care, Women's Health, STI Testing & Treatment, Pediatrics, Dental & Behavioral Health.

Essential Job Function of a Population Health Specialist

The role of the Population Health Specialist is to drive change for an entire population by deploying a variety of engagement efforts with patient populations. This position is central to the management of population health. It will require the collection and analysis of large sets of data that help care coordinators make recommendations based on the data gathered.

The Population Health Specialist will identify common and systematic patterns in the health of specific populations and develop plans to improve those people's health and well-being.

Position Requirements

- Degree in Nursing or Master's in Public Health or related education
- If hired, documented proof of highest level of education completed must be delivered on first day of employment
- Five (5) or more years of clinical experience
- Two (2) or more years of experience interpreting and using data
- 20% local travel

Preferred Qualifications

- Maintains a current Nursing License issued by the Louisiana State Board of Nursing
- Strong computer skills required and must be proficient with Microsoft Office applications including Word, Excel and Outlook
- One (1) year experience with ICD-10 and CPT Coding
- Fluent in Written and Spoken Spanish
- Federally Qualified Health Center (FQHC) experience
- HIV/AIDS knowledge and patient experience
- Experience with the LGBT community
