Google Apps for Education & Chromebooks Permission Form

With an ever-evolving technological world around us, we want our students to be prepared and equipped with the skills necessary to be successful in today's society. Kenilworth is offering an online service for its students called Google Apps for Education and the opportunity to use Chromebooks. Google Apps for Education is an internet based group of tools similar to Microsoft Office which will allow students to create and store documents, access information, study, and collaborate with students and teachers through the internet. Students can access Google Apps for Education while at school, but students can also access the online service outside of school from anyplace that they have access to the internet. Google provides Google Apps for Education free to educational institutions such as Kenilworth, and the online service is used by thousands of K-12 schools and major universities throughout the nation. The Google Apps for Education homepage can be found at <http://www.google.com/enterprise/apps/education/>. With the use of these tools, we must also ensure that our students are being safe digital citizens and following school guidelines.

While using the Chromebooks and Google for Education Apps, students should adhere to the following guidelines:

- **Respect Yourself:** I will show respect for myself through my actions. I will select online names that are appropriate. I will use caution with the information, images, and other media that I post online. I will carefully consider what personal information about my life, experiences, or relationships I post. I will not be obscene. I will act with integrity.
- **Protect Yourself:** I will ensure that the information, images, and other media that I post online will not put me at risk. I will not publish my personal details, contact information, or a schedule of my activities. I will report any attacks or inappropriate behavior directed at me while online. I will protect passwords, accounts, and resources.
- **Respect Others:** I will show respect to others by not using electronic ways to antagonize, bully, harass, or stalk people. I will show respect for other people in my choice of websites: I will not visit sites that are degrading to others, pornographic, racist or inappropriate. I will not enter other people's private spaces or areas.
- **Protect Others:** I will protect others by reporting abuse and not forwarding inappropriate materials or communications. I will avoid unacceptable materials and conversations.

******If your child damages a Chromebook in any way, the parent is responsible for paying a fine of \$50. Should a student owe this fine, they must pay it before receiving their final report card.***

These are the laws and policies that help to protect our students online:

Family Educational Rights and Privacy Act (FERPA): FERPA protects the privacy of student education records and gives parents the rights to review student records. Under FERPA, schools may disclose directory information but parents may request the school not disclose this information. Parents are provided the opportunity annually to opt out of disclosing their student's directory information on the District's Enrollment Form. --FERPA – <http://www.ed.gov/policy/gen/guid/fpco/ferpa>

Children's Online Privacy Protection Act: (COPPA) COPPA applies to commercial companies and limits their ability to collect personal information from children under 13. By default, advertising is turned off for Bloomfield Hills presence in Google Apps for Education. No personal student information is collected by Google for commercial purposes. This permission form allows the school to act as an agent for parents in the collection of information within the school context. The school's use of student information is solely for education purposes. Student information that is "collected" by Google is described as (projects, documents, email, files, username and password). --COPPA – <http://www.ftc.gov/privacy/coppafaqs.shtm>

Child Internet Protection Act (CIPA): The school is required by CIPA to have technology measures and policies in place that protect students from harmful materials including those that are obscene and pornographic. This means that student internet access is filtered.

By signing below, I confirm that I have read and understand the following: Under FERPA and corresponding Louisiana law, a student's education records are protected from disclosure to third parties. I understand that my student's education records stored in Google Apps for Education may be accessible to someone other than my student and KST by virtue of this online environment. My signature below confirms my consent to allow my student's education record to be stored by Google. I understand that by participating in Google Apps for Education, information about my child will be collected and stored electronically. I have read the privacy policies associated with use of Google Apps for Education (<http://www.google.com/a/help/intl/en/edu/privacy.html>).
