What are the benefits to having a program like this at your school?

- Grace Notes will provide your child a musical education of excellent quality.
- Convenience is very important to parents, who may want enrichment for their children but may not want to drive somewhere for lessons each week. Instrument rentals may also be available.
- Children will perform on concerts at the end of each semester, which provides them with valuable life experience and opportunity for self-expression.
- The Grace Notes Music School of Music website has a separate sign-up button for St. Luke school.
