

Industrial Portfolio

THE **DAY** GROUP

VME Process clients typically build vessels for drilling, storage, and processing crude oil and gas at sea. We were asked to update their branding and marketing materials, website, and sales sheets to promote the services they offer.

VME Process

Sales Sheets

We designed this trade show display for the Offshore Technology Conference in Houston, TX. OTC is the largest trade show of its kind, and VME Process was front and center.

X4T | 4 TINE SCRAP GRAPPLE

1 ROTATION

- Separate components allowing for ease of maintenance
- Bearings have 30% higher load ratings
- Motor & swivel feature built in cross over relief—prevents damage from pressure spikes
- Swivel is rated at 5,000 psi (10,000 psi seals)
- Upgraded wear-bands for longer life

2 CYLINDER FEATURES

- 70% increase in upper cylinder pin size
- Grease seals added to lower pin connection
- Bronze bushing replaces spherical bearing
- 2 inch cylinder pins with wider bushings
- Bolted head increases strength and reliability over threaded design
- High pressure seals designed to handle increased pressure and pressure spikes

3 TINES

- Proven modular design to decrease stress while increasing structural integrity
- High strength wear resistant alloy steel
- In house Finite Element Analysis and 3D design

4 PIN CONNECTIONS

- Improved design offers 2X longer life
- 35% increased surface area at tine pin connection
- Sealed connection retains grease

➤ Robust design to handle pressure spikes and higher flows

➤ Designed for material handlers that run high pressure and high flow

OFFICE SPACE REMODELING

Sometimes a little paint goes a long way. Or maybe you need a few walls moved. You could be completely changing your workspace adding some modular workstations, a new breakroom or conference room.

Or you could be building out that third floor for a new tenant. In every situation, Spencer Contracting has you covered. Our specialty is our ability to get the work done with minimal disruption to your office, staff, and productivity.

We work around you and your schedule. We provide an on-site supervisor to communicate with your team leader every day to insure safe, fast, and quality work on time and on budget. Anyone can tear down a wall or build a new room. Spencer does it with your priorities and work schedule in mind, and we do it right.

LIGHT COMMERCIAL RETAIL /
TENANT BUILDOUT

The timing for opening or re-opening your business is critical, so you need a contractor who knows how to get things done right the first time. Our experience in retail buildouts will ensure your project goes quickly, passes inspection, and is exactly the space you were hoping for.

We know the building codes, the do's and don'ts, and we bring the highest quality of construction possible to every project and it shows. Our project managers know retail, and we make it our business to get your business going.

WHAT WE DO

Spencer Contracting does more than just build, remodel, and repair spaces for retail, office, or commercial entities. We're actually in business to build something a bit more difficult than a structure. Our goal is to build TRUST.

As your contractor, we will earn your trust through our experience, quality craftsmanship, and transparency. Our door is open, our calendar is shared, and our work speaks for itself. We're in business to serve you, and the result is an anxiety free, trustworthy experience and a quality-built structure, remodel, or repair.

Experience: 20+ years of getting it done on time and on-budget
Craftsmanship: We build it right, and we build it to last.
Transparency: Earning your trust begins with us.

"We Build Trust."

 Air Safety Systems, LLC
217 Jared Dr., Broussard, LA 70518 | AirSafetyLLC.com

Air Safety Systems is a division of Industrial Emergency Services, providing breathing air apparatus for fire and rescue teams, hazardous materials teams, and those who work in toxic environments. We designed a logo, website, and sales sheets for the business development team.

AIR SAFETY
Logo Design and Flyer

We design, engineer, install and service fire and gas safety systems for a variety of industries across the globe.

Fire and Gas Detection

For gas and fire, the key is early detection, and the key to early detection is the right equipment.

Public Address/General Alarm

The design, installation, and service of your public address, general alarm system is our forte.

Fire Suppression

We custom design for your environment, including FM-200, Novec 1230, and CO applications.

Automation

We can introduce automation in many different operations throughout your plant, compound, campus, or facility.

We service:

- Terminals and Pipelines
- FPS Companies
- Power Utilities
- Water and Wastewater Utilities
- Shipyards
- Jackups, Semi-Submersibles, and Drillships
- Fixed Production Platforms
- Floating Production Platforms
- Plants & Refineries
- Shipyards

**GOING
PLACES**
WITHOUT LEAVING HOME.

Being a national leader in Communications, IT Services, and Emergency Notification can take you places. From the depths of the earth to the reaches of space, our clients depend on our people, products and services. But that kind of success takes years. Fifty to be exact.

Though we have customers and employees nationwide, we began our adventure here in Baton Rouge in 1962, and we're not going anywhere. That's why we support local organizations like the LSU Entrepreneurship Program, the Arts in Baton Rouge, Healthcare and other charitable organizations. Our Home, Our Community.

Brochure

The Project One graphic was created for internal use at Head and Enquist to communicate and grow the internal culture of the company. It is used for display at events, for internal office meetings, and for printed materials.

H&E Project One

Title Graphic

Front

We worked with the Information Technology department at H&E to execute a new internal PR campaign, or culture program. We named it Project One, denoting that the most important project they have is their own, because if they aren't good, none of the other projects will matter. The tagline "People, Performance, Purpose" reflects their values and the logo displays the strength of their company and department.

H&E EQUIPMENT SERVICES

Team Building Handout

Back

Employed as consultants, we helped to define and refine the culture pillars of the department, upon which all else is built. Many of the employees post this card at their workstation as a reminder of their core values.

H&E EQUIPMENT SERVICES
Team Building Handout

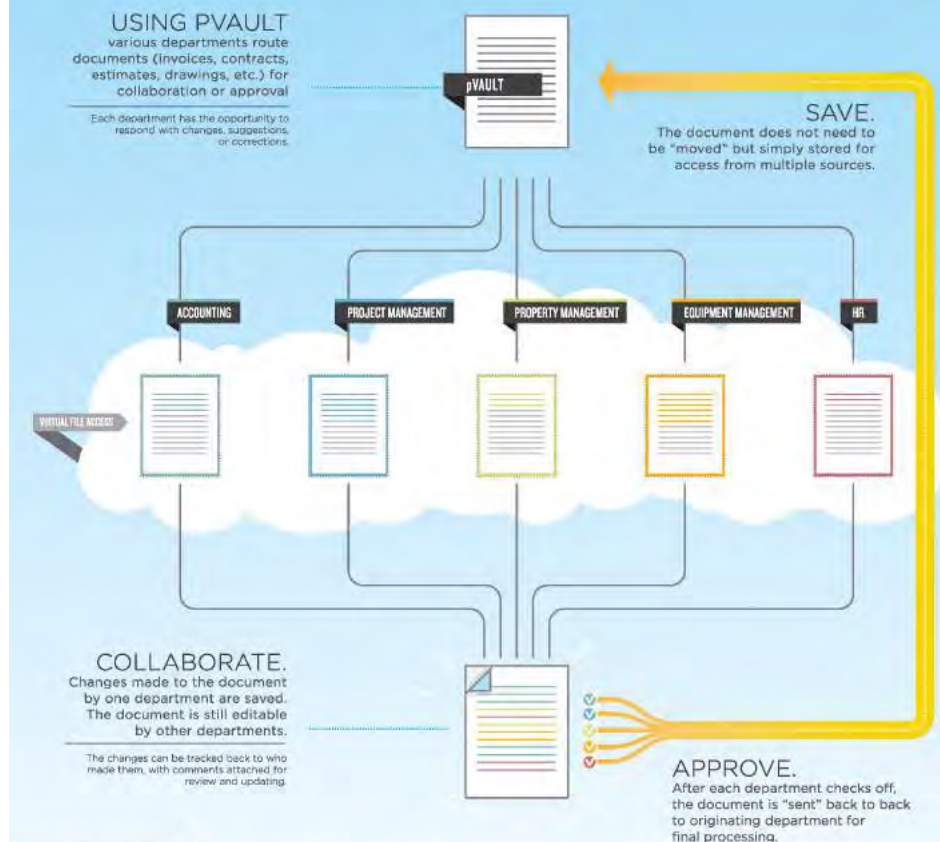

Paperless Environments creates software for the construction industry. We redesigned this logo to make it more contemporary and simplified.

MEDICAL SERVICES

ON-SITE MEDICAL & TRAUMA RESPONSE

TRINITY TRADEMARKS

Our paramedics are fully licensed, certified, insured and experienced to meet and exceed all industry standards and regulations.

Our paramedics are not only trained to treat injuries in a time of crisis; they also **keep all medical processes running smoothly** on site

Trinity physicians can go anywhere, anytime. Our paramedics are prepared for any type of emergency, at any given time.

Trinity Medical Services provides highly trained and certified on-site Trauma Response paramedics to remote drilling companies. Our paramedics serve on various drilling rigs, installations, and other facilities, providing added value and favorable safety and environmental conditions to you and your customers.

Trauma Response Paramedics are trained to prepare for and handle all injuries and medical emergencies on site. Paramedics:

- Immediately address problems as they occur
- Assess the scope and level of treatment needed
- Determine the action required and administer treatment
- Consult with on-staff physicians and safety professionals
- Deliver an elevated level of care and action

Our paramedics are trained and ready to serve during "down time". They are qualified in:

- Radio Operations
- Safety Inspections
- Pre-Coast Guard Inspections
- Helicopter Landing
- Log-in and Log-out of on-site personnel
- First Aid, Accident Prevention, and CPR Training to client employees
- Inspecting and maintaining on-site first aid stations
- Fire inspections
- Conducting emergency evacuation drills

Brochure

Gage

Gage Telephone's services have gone beyond phones for many years now, so they knew it was time to refresh their brand. They shortened their name to Gage, and we created a logo to reflect that simplicity and strength. Notice something familiar? We created this style just before Google released their latest logo.

GAGE
Logo

ChevCV_070 Chevrolet City Express 1/20th Scale

Once we created a new logo for Gage, it was time to update their transportation. We used a simple, yet striking use of whitespace and listed their services on the back.

GAGE

Vehicle Wrap

All in One Place.

backup

Gage started as a phone company but has evolved into a technology consultancy. Describing all they do is easier when each category has its own image icon. The tagline "All In One Place" describes both the company and the customers' desire to keep things under control.

Front

GAGE

Information Sheet

Insite from GAGE makes technology easy again.

Insite is a customized managed services plan from **GAGE** that handles all of your company's technology needs with one simple, level bill.

With **Insite** from **GAGE** you get all of the benefits of an internal IT department, at a fraction of the price. **Insite** is a service that installs, monitors and manages a company's technology. A **GAGE** business development specialist works with you to develop a customized **Insite** plan for your business.

**Stop worrying about technology.
Let GAGE install, monitor and manage your:**

Data Network	Data Equipment
Telephone System	Structured Cabling
Data Backup	CCTV

phone systems are the lifeline of your business/

Whether just getting started or adding another location, the phone system is the key to keeping your customers, employees, and vendors connected. A well-designed solution will ensure your systems are available to help meet the demands of your business.

voice

data empowers your productivity/

Information is the backbone of every successful business. It takes the right combination of hardware and software to be sure that you have clear access to that data. Remote office support, firewall & router support, and large capacity storage give your business the power to get business done.

data

cabling is the infrastructure of your technology/

Structured Cabling is the foundation on which all other business activities depend. A properly designed, installed, and administered cabling system reduces costs through each phase of its life cycle: installation, moves, adds, changes, and maintenance.

cabling

a good network changes the way you grow/

Your network is not just a compilation of connected equipment and software – it is the enabler for your entire organization. When a network is done right, with the proper hardware and software, it effortlessly facilitates the growth of your business.

network

online backup keeps your data safe and within reach/

With online backup, all of your company's important information is saved offsite, eliminating the chance of losing your data. Your files are encrypted, sent over a secure connection and stored safely for quick and easy retrieval.

A CORPORATE GREEN COMPANY

GREEN SEASONS
Logo

After renaming Corporate Green "GreenSeasons," we developed their logo and designed a fleet of vehicles. The designs are basically the same with the exception of the featured illustration depending on the vehicles' use. These "rolling billboards" are now some of the most recognized in the city.

GREEN SEASONS

Truck Wrap

To complete the truck designs, we provided custom illustrations to be applied to trucks for each area of practice. The designs appear to pop out of the circle, giving the illusion of size and importance.

GREEN SEASONS
