INDEPENDENT AUDITOR'S REPORT

October 10, 2013

Louisiana Clerks' of Court Retirement and Relief Fund Board of Trustees 10202 Jefferson Highway, Bldg A Baton Rouge, LA 70809

We have audited the accompanying financial statements of the Louisiana Clerks' of Court Retirement and Relief Fund as of and for the year ended June 30, 2013 and 2012, and the related notes to the financial statements, which collectively comprise the Fund's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Louisiana Clerks' of Court Retirement and Relief Fund as of June 30, 2013 and 2012 and the changes in financial position for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operations, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fund's basic financial statements. The other supplementary information as listed in the table of contents is presented for the purposes of additional analysis and is not a part of the basic financial statements.

The other supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued a report dated October 10, 2013 on our consideration of the Louisiana Clerks' of Court Retirement and Relief Fund's internal control over financial reporting and on our test of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

FINANCIAL HIGHLIGHTS:

- The Louisiana Clerks' of Court Retirement and Relief Fund's assets exceeded its liabilities at the close of fiscal year 2013 by \$443,430,781. The net position held in trust for pension benefits increased by \$53,158,439 or 13.62%. The increase was due primarily to the increase in investments due to positive market conditions.
- Contributions to the plan by members and employers totaled \$21,937,111, an increase of \$13,225 or .06% over the prior year. The minimal increase is due to an increase in salaries.
- Funds collected from ad valorem taxes within the respective parishes totaled \$8,808,707, an increase of \$710,339 or 8.77% from the prior year.
- Funds collected from state revenue sharing funds totaled \$320,859, a decrease of \$568 or .18% from the prior year.
- Net appreciation in the fair value of investments was \$43,665,465 as of June 30, 2013 as compared to a net appreciation of \$469,829 as of June 30, 2012. This is a result of an extremely positive market for fiscal year 2013 and a relatively flat market for fiscal year 2012.
- The total return on the Fund's investments for the year ended June 30, 2013 was a positive 14.18%. The Fund's total return was due primarily to the fluctuation in the total portfolio. Equities and Master Limited Partnerships (MLP's) were leading market increases while the bond index fund market had the largest decline.
- Pension benefits paid to retirees and beneficiaries increased by \$2,531,012 or 12.15%. This increase is primarily due to increased number of retirees.
- DROP benefits paid to participants increased by \$2,276,167 or 118.19% over the previous year. This increase is due to more DROP participants retiring.
- Property, plant and equipment increased by \$780,226 over the prior year. This is due to the purchase of land and construction of a building. The new office is located on Jefferson Highway in Baton Rouge and became operational in August of 2013.

2. PLAN DESCRIPTION: (Continued)

The following is effective for any disability retiree whose application for disability retirement is approved on or after July 1, 2008. The provisions related to the calculation of benefits will apply to any disability retiree whose application for disability retirement was approved before July 1, 2008, for benefits due and payable on or after January 1, 2008.

A member is eligible to receive disability retirement benefits from the Fund if he or she is certified to be totally and permanently disabled pursuant to R.S. 11:218 and one of the following applies:

- 1) The member's disability was caused solely as a result of injuries sustained in the performance of their official duties.
- 2) The member has at least ten years of service credit.

A member who has been certified as totally and permanently disabled will be paid monthly disability retirement benefits equal to the greater of:

- 1) Forty percent of their monthly average final compensation
- 2) Seventy-five percent of their monthly regular retirement benefit computed pursuant to R.S. 11:1521(c)

If a member who has less than five years of credited service dies, his accumulated contributions are paid to his designated beneficiary. If the member has five or more years of credited service, automatic option 2 benefits are payable to the surviving spouse. These benefits are based on the retirement benefits accrued at the member's date of death with option factors used as if the member had continued in service to earliest normal retirement age. Benefit payments are to commence on the date a member would have first become eligible for normal retirement assuming continued service until that time. In lieu of a deferred survivor benefit, the surviving spouse may elect benefits payable immediately with benefits reduced 1/4 of 1% for each month by which payments commence in advance of member's earliest normal retirement age. If a member has no surviving spouse, the surviving minor children under 18 or disabled children shall be paid 1/2 of the member's accrued retirement benefit in equal shares. Upon the death of any former member with 12 or more years of service, automatic option 2 benefits are payable to the surviving spouse with payments to commence on the member's retirement eligibility date. In lieu of periodic payments, the surviving spouse or children may receive a refund of the member's accumulated contributions.

2. PLAN DESCRIPTION: (Continued)

In lieu of terminating employment and accepting a service retirement allowance, any member of the Fund who is eligible for a service retirement allowance may elect to participate in the Deferred Retirement Option Plan (DROP) for up to thirty-six months and defer the receipt of benefits. During the year ended June 30, 2007 participants had to have been an active contributing member for one full year before becoming eligible for DROP. Upon commencement of participation in the plan, active membership in the Fund terminates and the participant's contributions cease; however, employer contributions continue. Compensation and creditable service remain as they existed on the effective date of commencement of participation in the plan. The monthly retirement benefits that would have been payable, had the member elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan account. Upon termination of employment at the end of the specified period of participation, a participant in the program may receive, at his option, a lump sum payment from the Fund. If employment is not terminated at the end of the participation period, payments into the account cease and the member resumes active contributing membership in the Fund. Upon termination, the member receives a lump sum payment from the DROP fund equal to the payments made to that fund on his behalf, or a true annuity based on his account (subject to approval by the Board of Trustees). The monthly benefit payments that were being paid into the DROP fund are paid to the retiree and an additional benefit based on his additional service rendered since termination of DROP participation is calculated using the normal method of benefit computation. The average compensation used to calculate the additional benefit is that used to calculate the original benefit unless his period of additional service is at least thirty-six months. In no event can the entire monthly benefit amount paid to the retiree exceed 100% of the average compensation used to compute the additional benefit. If a participant dies during the period of participation in the program, a lump sum payment equal to his account balance is paid to his named beneficiary or, if none, to his estate.

The Board of Trustees is authorized to provide a cost of living increase to members who have been retired for at least one full calendar year. The increase cannot exceed the lesser of 2.5% of the retiree's benefit or an increase of forty dollars per month. The Louisiana statutes allow the Board to grant an additional cost of living increase to all retirees and beneficiaries over age 65 equal to 2% of the benefit paid on October 1, 1977 or the member's retirement date if later. The increase may only be granted from investment earnings in excess of the valuation interest rate of 8%.

In lieu of granting a cost of living increase as described above, Louisiana statutes allow the board to grant a cost of living increase where the benefits shall be calculated using the number of years of service at retirement or at death plus the number of years since retirement or death multiplied by the cost of living amount which cannot exceed \$1.

In order to grant any cost of living increase, the ratio of the actuarial value of assets to the pension benefit obligation must equal or exceed a statutory target ratio.

3. CONTRIBUTIONS, RESERVES AND FUNDS:

Contributions:

Contributions for all members are established by state statute at 8.25% of earnable compensation. The contribution is deducted from the member's salary and remitted by the participating parish or court.

According to state statute, contributions for all employers are actuarially determined each year. The actuarially determined employer contribution rate for fiscal years ending June 30, 2013 and 2012 was 18.40% and 16.21%, respectively. The actual employer contribution rate for fiscal years ending June 30, 2013 and 2012 was 17.25% and 17.25%, respectively.

In accordance with state statute the Fund also receives ¼ of 1% of ad valorem taxes collected by each parish and state revenue sharing funds. These additional sources of income are used as additional employer contributions.

Administrative costs of the Fund are financed through employer contributions.

Reserves:

Use of the term "reserve" by the Fund indicates that a portion of the fund balance is legally restricted for a specific future use. The nature and purpose of these reserves are explained below:

A) Annuity Savings Fund:

The Annuity Savings Fund is credited with contributions made by members of the Fund. When a member terminates his service, or upon his death before qualifying for a benefit, the refund of his contributions is made from this fund. If a member dies and there is a survivor who is eligible for a benefit, the amount of the member's accumulated contributions is transferred from the Annuity Savings Fund to the Annuity Reserve Fund. When a member retires, the amount of his accumulated contributions is transferred to the Annuity Reserve Fund to provide part of the benefits payable. The Annuity Savings Fund as of June 30, 2013 and 2012 is \$62,896,291 and \$62,362,285, respectively. The Annuity Savings Fund is fully funded.

B) <u>Employer Reserve Fund</u>:

The Employer Reserve Fund consists of contributions paid by employers, interest earned on investments and any other income not covered by other accounts. This fund is charged annually with an amount, determined by the actuary, to be transferred to the Annuity Reserve Fund to fund retirement benefits for existing recipients. It is also relieved when expenditures are not covered by other accounts. The Employer Reserve Fund as of June 30, 2013 and 2012 is \$196,928,241 and \$200,910,376, respectively. The Employer Reserve Fund is 66% and 51% funded as of June 30, 2013 and 2012, respectively.

3. <u>CONTRIBUTIONS, RESERVES AND FUNDS</u>: (Continued)

C) Annuity Reserve Fund:

The Annuity Reserve Fund consists of the reserves for all pensions, excluding cost-of-living increases, granted to members and is the fund from which such pensions and annuities are paid. Survivors of deceased beneficiaries also receive benefits from this fund. The Annuity Reserve Fund as of June 30, 2013 and 2012 is \$224,981,867 and \$200,670,669, respectively. The Annuity Reserve Fund is fully funded.

D) <u>Deferred Retirement Option Account:</u>

The Deferred Retirement Option Account consists of the reserves for all members who upon eligibility elect to deposit into this account an amount equal to the member's monthly benefit if he had retired. A member can only participate in the program for three years, at which time the member may receive his benefits in a lump sum payment or by a true annuity. The Deferred Retirement Option Account balance as of June 30, 2013 and 2012 is \$24,510,408 and \$23,459,131, respectively. The Deferred Retirement Option Account is fully funded.

E) Funding Deposit Account:

The Funding Deposit Account consists of excess contribution collected by the Fund. The excess funds earn interest at the board approved actuarial valuation rate and are credited to the fund at least once a year. These funds are due to the Fund freezing the employer rate at a higher rate than actuarially required. The excess funds can be used for the following purposes: (1) reduce the unfunded accrued liability, (2) reduce the present value of future normal, and/or (3) pay all or a portion of any future net direct employer contributions. The Funding Deposit Account was established as of January 1, 2009 and has a balance as of June 30, 2013 and 2012 of \$1,618,182 and \$1,505,286, respectively. The Funding Deposit Account is fully funded.

4. <u>ACTUARIAL COST METHOD</u>:

The "Frozen Attained Age Normal" cost method was used to calculate the funding requirements of the Fund. Funding of pension plans under this method consists of two components. The first of these components is the Employer Normal Cost of the plan. In addition, amortization payments on the Fund's unfunded liability must be made. The actuarial present value of future normal cost is called the actuarial accrued liability. Act 81 of the 1988 legislative session requires that the unfunded accrued liability be amortized over a forty-year period beginning on July 1, 1989 with payments increasing at 4.75% per year.

5. REQUIRED SUPPLEMENTARY SCHEDULES:

Information in the required supplemental schedules is designed to provide information about the Fund's progress made in accumulating sufficient assets to pay benefits and is presented on pages 29-30.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON
AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

October 10, 2013

Louisiana Clerks' of Court Retirement and Relief Fund Board of Trustees 10202 Jefferson Highway, Building A Baton Rouge, LA 70809

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the statement of plan net position and the related statement of changes in plan net position of Louisiana Clerks' of Court Retirement and Relief Fund, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Louisiana Clerks' of Court Retirement and Relief Fund's basic financial statements, and have issued our report thereon dated October 10, 2013.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Louisiana Clerks' of Court Retirement and Relief Fund's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Louisiana Clerks' of Court Retirement and Relief Fund's internal control. Accordingly, we do not express an opinion on the effectiveness of Louisiana Clerks' of Court Retirement and Relief Fund's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Louisiana Clerks' of Court Retirement and Relief Fund's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
